Turning Hopeless Situations Around

Introduction:

We all face problems in life. We all find ourselves in circumstances and situations where we need help. We all face situations and circumstances which at times seem to be hopeless and would all like to see those hopeless situations turned around. Today we will look at how to turn those seemingly hopeless situations around.

1. If You Can Believe
Mark 9:22-23

2. Faith Is Your Victory
1 John 5:4-5

3. The Word Of God Is The Power Of God
Romans 1:16

Conclusion:

As we have learned today, with God there are no hopeless situations, that with God all things are possible. Whatever the situation is, if we will believe God and act upon His Word in faith, the power of God's word will be released into our situation and turn those seemingly impossible, hopeless situations around.

Discussion questions:

1. What does it mean to believe God?
2. In what ways do we limit God in our situation?
3. How do we activate the power of God in our situations?
